Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Quayle Action

This application is in condition for allowance except for the following formal matters: the applicant has amended previously withdrawn claims so that they may be allowable. Claims 9-18 are included with the Allowed Claims.

The remaining claims are not recombined and not allowed: claims 20-34 are to the circuit itself or are "product by process" claims, which are also viewed as product claims. Claim 35 is essentially a duplicate of claim 9.

Claim 9, line 6, change "part of the planar" to -part of a planar-.

Cancel the remaining non-elected claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The following is an examiner's statement of reasons for allowance: the claimed invention is distinguished over the prior art of record in that the prior art does not teach a photolithographic mask set and a method of using, wherein the mask set comprises a master mask including a first pattern having features for forming part of a planar circuit, the first pattern including a featureless region disposed therein such that the planar circuit is incomplete; and, a slave mask including a second pattern having features for completing the planar circuit.

Art Unit: 1756

And wherein the second pattern is designed to correct systematic errors induced by the master mask.

And the second pattern has been experimentally optimized using a plurality of other slave masks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
